What you Should Know about Paying by Check

We accept personal checks and money orders!

We gladly accept personal and company checks for payment of Isla orders. Here are a few things you should know about how we handle checks.

Your check needs to accompany your order. We verify funds for your check with a special service before we ship your order. If we are not able to verify funds, your order maybe put on hold, and unfortunately our bank in Puerto Rico takes at least 21 days to notify us if your check does not clear.

You can shorten this hold to almost nothing if we have a telephone number for you (remember - we do not rent or sell our customers telephone numbers!). An email address will not suffice. Our check service that requires us to have your physical address and your telephone to guarantee your check. With their guarantee, we can ship your order the same day.

In the case that the service guarantees your check, but it is returned to us for insufficient funds, we have to turn the check over to the service in order to collect the funds for our order under the guarantee...The service will then ask you to make good on the check (and I think they even try to collect penalties). It has not happened often and we'd like to keep it that way!

The service can also identify fraudulent checks for us! This helps us both as it means that if your checks are lost or stolen and you have reported them, the service will tell us not to honor the check.

Use your checks with confidence, and if you have any questions about using a check, please just call 1-800-575-4752.
